Declaration of Independent Authorship and the Use of AI-Based Tools

(Declaration of Originality)

Name (Last, First): ..... ☐ Bachelor's Thesis ☐ Essay

Degree Program: ..... ☐ Master's Thesis *Other:*

Supervisor: ..... ☐ Seminar Paper ☐ .....

Title of the Work: .....

.....

I. Declaration of Independent Authorship

1. I hereby declare that I have written this work independently. I have not used any sources, literature, or other resources except those explicitly acknowledged.
2. All passages of this work, including text, tables, maps, figures, illustrations, and any other material drawn, either verbatim or in substance, from published or unpublished sources, including internet sources, or created using AI-based tools, have been clearly identified in every instance by indicating its origin and, wherever possible, by providing a complete citation.

   This also applies to the use of my own work that has already been published, is being prepared for publication, or has previously been submitted as part of an academic program.

II. Declaration on the Use of AI-Based Electronic Tools

I declare that:

☐ I have **not** used any AI-based electronic tools.

☐ I have used AI-based electronic tools **in accordance with the examination regulations** governing my degree program.

If AI-based electronic tools have been used, the following additional declarations apply:

1. I accept full responsibility for the academic quality and content of this work, including any AI-generated or AI-assisted parts of the work, and have carefully reviewed each such part.
2. I have attached to this work a **record** documenting the use of AI-based electronic tools. This record is to be prepared using the template provided by the Examination Office and documents:
   - all AI-generated or AI-assisted content incorporated into this work; and
   - the use of AI-based tools to support work processes (in particular literature research, idea generation, outlining, language editing, or spelling and grammar checking).

   In addition, all AI-generated or AI-assisted **content** incorporated into this work has been **clearly identified at the relevant locations** within the work.

III. Acknowledgement of Obligations and Consequences

I confirm the above declarations regarding the independent authorship of this work and the use of AI-based electronic tools and acknowledge the obligations arising from them.

I understand that I must not present the work of others as my own and that plagiarism, false declarations concerning the independent preparation of this work, and the unauthorized or undisclosed use of resources may be regarded as an attempt to deceive. The consequences may include the assessment being graded as "failed" (5.0), as well as further measures in accordance with the applicable examination regulations.

Heidelberg, Date ..... Signature: .....

The completed and signed declaration must be attached to the work and will remain on file with the HfJS Examination Office.
